SAN DIEGO CRUISER ASSOCIATION

2008 has been a very busy year for the San Diego Cruisers. In May they hosted the Barusch/Castagna Pacific Coast Predicted Log Championship. (Results published in this issue of the Pennant.) Coming up in October they will host the North American Invitational (NAI) championship of the North American Cruiser Association (NACA). As was the Barusch, the NAI will be hosted at the San Diego Yacht Club and we are confident that it will be as much fun and as competitive as the earlier contest. SDCA Welcomes all the contestants from around North America.

About Pacific International Yachting Association

The first notes of the founders are dated May 15, 1920 creating Pacific International Yachting Association being a merger of the Northwest Yacht Racing Association and the Pacific International Power Boat Association, the later organizations having been in existence for some time previous. By laws were a simple one-page document stating the order of meetings, how disputes would be settled, and if a vote on a motion was tied it was then defeated. All questions of parliamentary practice not provided for would be determined by Robert's Rules of Order.

With the growth of PIYA came many responsibilities, the first be-

ing the allocation of sail numbers through NAYRU (predecessor to US Sailing), North America was divided in Areas A – H, with the dominant Yacht Racing Association in the area responsible for the distribution of sail numbers owned by members of the association member yacht clubs. Appeals followed, with each YRA having an appeals committee as a prescription to the RRS by US Sailing, this is also recognized as a valid appeals committee by the Canadian Yachting Association (CYA).

Special Regulations began to appear in the early 1960's and were developed by the Association in recognition of the number of overnight races that were being run in those days. It is safe to say that these were probably the first standards of any consequence in the world and were the basis of the ORC regulations as we see them now. Our Special Regulations have evolved over the years to reflect the changes in equipment and government requirements.

Membership is by Organization/Club – Active or Associate. These member clubs are entitled to the same privileges regarding race entry, protest, appeals, individual yacht trophy awards, etc. The only difference being in the vote allocation of clubs, which is noted in the By-Laws. An Application for Membership may be submitted for consideration by the Membership Committee at the Annual Meeting.

RBOC
Protecting your boating interests.

Our Mission

Recreational boating is big business in California! The Department of Boating and Waterways (DBW) estimated that California boater contribute \$17 Billion to the States economy. Recreational boating also contributes more than \$1.6 billion in state and local taxes, creates 284,000 California jobs, and supports more than 8,500 California businesses. The only organization committed to the protection of all recreational boaters in the state of California is Recreational Boaters of California (RBOC).

What are RBOC's Goals?

1. To protect all California recreational boaters and boating rights;
2. To achieve and enhance a balance between protecting the environment and the responsible use of our waterways;
3. To pursue effective education prior to new regulations;
4. To increase safety on the waterways;
5. To oppose unreasonable taxes & fees paid by boaters;
6. To ensure that recreational

boating is excluded from proposed laws aimed at the maritime industry.

How does RBOC Work for Us?

There are (9) Directors elected by the Pacific Inter Club Yacht Association (PICYA) and (9) by the Southern California Yachting Association (SCYA). Richard Schwartz, Chairman and Founder of BoatU.S. and Margaret Podlich, Vice President of Government and Public Affairs for BoatU.S. are ex-officio member of the RBOC Board. BoatU.S. advocates the interests of California boaters at the federal level.

Also the sitting commodores of both PICYA and SCYA are ex-officio members of the RBOC Board of Directors.

RBOC's State Governmental Affairs Committee reviews all legislation submitted to the California State Assembly and Senate for issues affecting recreational boaters. The number of bills introduced in a legislative cycle can reach 3,000 or more! Directors testify at Senate and Assembly Hearings as bills work their way through the various committees of the State Legislature.

RBOC takes positions on all bills that could impact recreational boating. A position may be support, oppose, support if amended, oppose unless

amended, or watch. RBOC also sponsors legislation that benefits the recreational boater.

RBOC lobbies those bills that have the most impact on recreational boaters. Since 1971 the firm of Desmond & Desmond has provided professional legislative advocacy for RBOC.

RBOC's Regional Affairs Committee is involved in local and regional issues when requested by a PICYA or SCYA member organization or a not-for-profit organization representing all local and regional recreational boaters. The RBOC Directors testify in behalf of recreational boaters at all levels of local and regional governments.

RBOC Directors maintain continuous contact with their own state legislators including the authors of all bills that RBOC has taken a position.

How is RBOC Funded?

RBOC is supported by the voluntary contributions made by members of organizations within PICYA and SCYA. Contributions may be from individuals or budgeted by the member organizations as part of their annual operating budget.

Donations from individuals not associated with PICYA or SCYA are made via this website or mailed to RBOC.

RBOC also receives a gener-

RBOC - Continued from p. 7

ous donation from BoatU.S. Their donation is based on the number of BoatU.S. Members in California.

Where Does the Money Go?

All Directors volunteer their time; extraordinary travel expenses can be reimbursed. Approximately 85% of the budget covers legislative advocacy efforts and lobbying fees. The remaining 15% includes travel expenses and administration costs.

For details on RBOC's current activities or to make a contribution go to: <http://www.rbo.org>

PCYA also helps in looking after the interests of recreational boating on the west coast. Recreational Boaters of California (RBOC), the California legislative advocate group grew out of discussions with PCYA, PICYA and SCYA.

The Lipton Regatta Series will be held at the Golden Gate Yacht Club in San Francisco July 19-20, 2008. Four series include the Sir Thomas J. Boaters volunteer their boats (powerboats only) and those who served our country get to enjoy a free day on the bay. The event will be held on Saturday, September 27, 2008.

Copies of all entry forms and the Notice of Race for each regatta will be available at the PICYA website, www.picya.org. For additional information please contact PICYA race chair Tony Shaffer at: tonyshaffer@earthlink.net

In addition to these events on

the water, PICYA hosts a Spring Leadership Conference, which will be held at the Richmond Yacht Club on March 22, 2008 and a Management Conference, which is scheduled for October 4, 2008. These conferences bring together club officers from PICYA member clubs to discuss issues of interest and concern to area yacht clubs. PCYA members are encouraged to participate in any of these activities – additional information and sign-up forms for all of the events discussed above can be found at www.picya.org.

About the YRA of SF Bay

Welcome to the Yacht Racing Association of San Francisco Bay, the primary organization supporting competitive racing in Northern California. Through our efforts to promote, coordinate and administer organized racing, we make competitive sailing in the Bay Area possible.

In all we do, the YRA acts as an advocate for sailing in the Bay. We pride ourselves on being responsive to the racing needs and desires of our members. From maintaining buoys, race management, appeals, and processing PHRF Certificates, to acting as the liaison for the Coast Guard, the YRA ensures races happen in a fair, safe, fun and competitive way for racers at all levels.

Membership to the YRA gives you a voice in the way racing in San Francisco Bay happens and helps to ensure the continued growth and support of racing in Northern California. Memberships are available to individual sailors as well as businesses that serve and support the sailing community.

Those who join the YRA are also eligible to belong to one of our four charter associations. Each charter association represents a specific type of racing or types of boats. The four charter associations are:

- HDA (Handicap Divisions Association): Bay racing using the PHRF handicapping system.

- ODCA (One Design Class Association): Bay racing for one design fleets
- OYRA (Offshore Yacht Racing Association): Ocean racing using PHRF, IMS, or MORA ratings. Includes a short-handed sailing division, one-design fleets and a cruising division.
- WBRA (Wooden Boat Racing Association): Bay racing for the following wooden one design fleets: Bird, Folkboat, IOD and Knarr.

In addition to making sure competitive racing functions smoothly, we strive to expand the interest and awareness of yacht racing beyond the sailing community to all those who love San Francisco Bay and dream of sailing. By sharing our sport, we hope to engage newcomers and expand our community. For ways you can get involved, click [here](#).

San Diego Association of Yacht Clubs

The San Diego Association of Yacht Clubs was founded for the purpose of fostering and encouraging participation in yachting and to promote its public interest in the San Diego area. The association's officers and directors are chosen from the ranks of past commodores of its member clubs.

The Association is a forum from which its members can exchange ideas, coordinate activities and foster fellowship in

the boating community. We take an active roll in the community by providing input to local and state governments on matters, which are of interest to the boating community. Our association members are proud to take a proactive position on boating safety by offering both boating safety and first aid classes focusing on both CPR and first aid for on-the-water accidents.

Our association member clubs offer Junior Sailing Programs, which include Sailing lessons and a chance to sharpen sailing skills to non-members as well as members. Member clubs hold annual events, including fund-raising for charities, which benefit the community at large. Each year the association recognizes members of the boating community. We reward these outstanding individuals by presenting the following:

- The Yachtsman and Yachtswoman of the Year award are presented for outstanding achievement and participation in the sport of yachting.
- The Paul J. Hartley Award recognizes a junior yachtsman or yachtswoman under the age of 18 for both service to their community and their ability on the water.
- The Alonzo De Jessop Award recognizes individuals for their service to the yachting community.
- The John M. Rumsey Award recognizes individuals for achievements in yachting outside San Diego County.

This Annual Meeting is a combined General and Board of Directors Meeting for the exchange of ideas for yacht club organizations and specifically PCYA.

All receiving this invitation and other members of your associations are invited and encouraged to attend. This is an opportunity to renew friendships up and down the West Coast as well as conduct the business of PCYA.

The General Meeting is a dinner meeting on Friday the 9th of January, at which time we vote on our slate of officers for 2009 and conduct the installation of new officers.

We will also announce the winners of the Charles Langlais trophy and the Garrett Horder award. We will conduct the Annual Meeting on Saturday morning, January 10th.

COMMODORE'S COMMENTS

Although it is just barely fall, it is time to start making plans for the annual transition that the yachting community will undertake over the next few months. Pacific Coast Yachting Association (PCYA) has as part of its mandate the duty to arrange a meeting of all the associations it represents each year. It has never been easy to accomplish this worthy task. Our area of responsibility reaches from Vancouver, BC Canada to Chula Vista.

In 2009 however, we hope to facilitate this goal by inviting the officers from all our member associations to attend the installations at each of the other associations. To accomplish this, PCYA will hold its installation of Commodore Martin Livingston from the Santa Monica Bay Power Fleet (SMBPF) at the Del Rey Yacht Club on Friday, January 9th. The following evening the installation of the incoming Southern California Yachting Association (SCYA) Commodore Pete Patman will take place at the same venue. All the officers of the PCYA member associations up and down the Pacific coast will be invited to attend both events.

Then, on January 31st, 2009 the Pacific Inter-Club Yachting Association (PICYA) representing the San Francisco Bay region will hold their installation. The event will be held at the St. Francis Yacht Club and Bill Needham will be installed as Commodore for 2009. All the officers from the PCYA member associations will be invited to attend. PCYA is confident that a good many of the officers will be able to participate in all the installations and that a useful interaction will take place.

PCYA has issued requests for nominations for the Horder Award for 2008, and the Langlais award for 2008. These prestigious awards recognize Junior Sailing Programs (Horder) and Individuals (Langlais) up and down the Pacific Coast. Information on both awards and the related deeds of gift can be seen on the PCYA website at <http://pcya.info/awards.html>

All the member clubs of the PCYA member associations are eligible to submit a nomination to their association board. The association will select one nomination for each award to be submitted to PCYA for consideration by their judges.

Deadlines and guidelines for the nominations are incorporated within the nomination requests. We are confident that several outstanding individuals and programs will test the judgment of those people tasked with making the final selection.
